

TEK 100
TEK 100 Cable Duct

Description

- PVC Raceways with wide capacity, ideal for wiring and electric energy.
- Color: White and aluminum.
- Duct, base, and cover weight 2.057 kg.
- Has an internal surface area of 4,478 mm².
- Certified in CSA.
- Working temperature in -20°C to +85°C.
- Resistance to humidify and corrosive environment
- High dielectric stiffness.
- Complies with the requirements from Mexican standard NOM-001-SEDE-2005.

* Dimensions (mm)
