PROFILE HEADSET

MODULAR ALL-PURPOSE HEADSET

NEW!

Modular cable assembly

Super soft, snap-in
replaceable foam and
gel ear seals

Flexible, noise
canceling boom mic

Modular cable
connector

Comfortable, lightweight design for extended wear. Sculpted ear cup fits well under helmets and hardhats. Ideal for utilities, mining, manufacturing and construction applications and other high noise environments.

Adjustable mesh strap
for a comfortable fit

Behind-the-head
suspension system
promotes stability

New slim, light
earcup design

OTTO's **Profile modular headset** features a lightweight behind-the-head design and gel ear seals to provide maximum comfort over long wear periods. The rugged coiled flex microphone boom features a noise canceling mic element and replaceable windscreen. The sculpted shape of the Profile works equally well with or without a helmet. A coiled cable features a low profile, in-line push-to-talk (PTT). The modular connector allows for interchangeability of cables for use with other radio platforms. The Profile is immersion rated to 1 meter for 30 minutes (IP67) and has a certified noise reduction rating (NRR) of 21dB.

Mechanical Specifications:

- Modular connector cable pull: 9 lbs
- Cable pull from ear cup, axial: 20 lbs
- Cable pull from connector, axial: 30 lbs
- 3 year manufacturer's warranty

Electrical Specifications:
