

EXTERIOR LIGHTING

SD24™ SERIES Surface Mount

Code 3's SD24 LED surface mount warning light offers maximum performance with a low current draw and long maintenance-free service life. Its small footprint allows it to be mounted to almost any location on the vehicle. Features include low profile look, 24 (1) watt high-intensity LEDs, 16 flash patterns, clear lens, synchronizable with additional Hide-A-Blast™, UV stabilized polycarbonate lens, and colorless when not illuminated.

Models
