

## EXTERIOR LIGHTING

### CD5051 Multi-Mount

The CD5051 Series directional LED warning light offers the flexibility of two different color outputs within a single unit, comprised of 9 high-intensity LEDs (single-color) or 18 high-intensity LEDs (dual-color). This directional is great for hard-to-mount applications including the grille area or rear hatch and comes with 3 mounting options. SAE Class I light output, synchronization capability and the choice of 18 flash patterns for single-color and 36 flash patterns for dual-color allows the creation of an attention-getting, multicolor warning system with half the number of lights typically required. Each model can be programmed to flash each color option individually or alternate colors.

#### Models

PART NO.	TYPE	LED COLOR
CD5051X	Single	<span style="color: red;">■</span> <span style="color: blue;">■</span> <span style="color: orange;">■</span> <span style="color: white;">■</span>
CD5051XX	Dual	<span style="color: orange;">■</span> <span style="color: blue;">■</span> <span style="color: red;">■</span> <span style="color: white;">■</span> <span style="color: red;">■</span> <span style="color: blue;">■</span> <span style="color: white;">■</span>

Replace "X" with A = Amber, B = Blue, R = Red, W = White

#### Features and Benefits

- 12-24 VDC, 0.7 Amps
- 18 Flash Patterns (Single) 36 Flash Patterns (Dual)
- Great for hard to mount locations
- 35% Slimmer than traditional models
- 180-degree light output
- Synchronizable
- Polycarbonate housing and lens
