

## EXTERIOR LIGHTING

### MICROPAK SERIES

#### SAE Class I Hide-A-Blast

The MICROPAK Hide-A-Blast Series provides the functionality of a warning light in a low profile design, allowing the vehicle's safe arrival to the scene. SAE Class I light output, synchronization capability, and the choice of 29 flash patterns for single-color and 69 flash patterns for dual-color allow the creation of an attention-getting, multi-color warningsystem with half the number of lights typically required. The MICROPAK offers flexibility with multiple flush mounting applications on virtually any surface including bumpers and on the sides of any vehicle.

#### Models

PART NO.	COLOR	VDC	AMPS	MOUNT
MICROPAK-X		12-24	1.2	Surface / Flush (1" Hole)
MICROPAK-DC-XX		12-24	0.6	Surface / Flush (1" Hole)

Replace X in part number with desired LED color: R = red, B = blue, A = amber, G = green, W = white

#### Features and Benefits

- 12-24 VDC
- Slim low-profile design with 6 powerful LEDs for a bright warning light
- All-in-module: all controls imbedded in the head light, avoiding a LED flash controller
- Optimized lens and optical, maximizing light beam in multiple single or dual colors variations
- Discreet flush mount, virtually applicable in any vehicle surface - insertable in a 1" hole, with 10" pigtail cable
- Steady burn override for worklight functionality
- Syncable with compatible Code 3 directionals: Chase™, MR6, Mega Thin™, XTP, and M180™ Series
- Temperature Range: -22°F to +122°F (-30°C to +50°C)
