(actual size)

Fire-retardant cable

The **Genesis II speaker microphone's** advanced audio construction transmits and receives exceptionally— even under the most extreme conditions. Compatible with a variety of radio makes and models, the Genesis II was designed with direct input from fire professionals. It is ideal for immediately dangerous to life and health (IDLH) situations such as underwater rescue operations and is the preferred choice of police, fire, SWAT and EMT services, maritime law enforcement and military forces because of its light weight, superb audio clarity and durability.

Mechanical Specifications:

- PTT switch life: 500,000 cycles
- Clothing clip assembly: 360° rotation with positive detent stops every 45°
- Cable pull at either end: 40 lbs
- Fire-retardant cable
- 24 month manufacturer's warranty

Environmental Specifications:

- Operating temperature: -30° C to +60° C
- Storage temperature: -57° C to +60° C
- Exceeds MIL-STD-810F spec, 40 mph blowing rain with cable attached
- Immersion rated, fully sealed per IP68 standard
